BAY COUNTY BOARD OF COMMISSIONERS

10/30/12

RESOLUTION

BY: BAY COUNTY BOARD OF COMMISSIONERS

WHEREAS, The Bay County Board of Commissioners has the duty, in its October annual session, to do the following in accordance with 211.37 of the Michigan Property Tax Laws; and

WHEREAS, These requirements are as follows:

Sec. 37: The County Board of Commissioners, at its annual session in October in each year, shall ascertain and determine the amount of money to be raised for County purposes, which determination and apportionment shall be entered at large on its records. It shall also examine all certificates, statements, papers, and records submitted to it, showing the moneys to be raised in the several townships for school, highway, drain, township and other purposes. It shall hear and duly consider all objections made to raising any such moneys by any taxpayer to be affected thereto. If it shall appear to the Board that any certificate, statement, paper, or record is not properly certified, or that the same is in anyway defective, or that any proceeding to authorize the raising of any such moneys had not been had or is in anyway imperfect, the Board shall certify the same, and if the certificate, statement, paper, record, or proceeding can then be corrected, supplied or had, the Board shall authorize and require the defects or omissions of proceedings to be corrected, supplied, or had. It may refer any or all the certificates, statements, papers, records, and proceedings to the Prosecuting Attorney, whose duty it shall be to examine the same and without delay, report in writing his opinion to the Board. It shall direct that such of the several amounts of money proposed to be raised for township, school, highway, drain, and allother purposes as shall be authorized by law, be spread upon the assessment roll of the proper townships, wards and cities. Such action and direction shall be entered in full upon the records of the proceedings of the Board, and shall be final as to the levy and assessment of all such taxes, except when there is a change made in the equalization of any county by the Board or State Tax Commissioners upon appeal in the manner provided by law. The direction for spread of taxes shall be expressed in terms of millages to be spread against the taxable values of properties and shall not direct the raising of any specific amount of money. This section does not apply when Section 36(2) applies; and

WHEREAS, The Bay County Board of Commissioners has caused the above to be thoroughly checked for statutory requirements; Therefore, Be It

RESOLVED That the following county millages shall be levied on the 2012 taxable value of real and personal property 2012 assessments rolls of each township and city within the County of Bay:

BAY COUNTY BOARD OF COMMISSIONERS

10/30/12

RESOLUTION

BY: COMMISSIONER ERNIE KRYGIER, 5TH DISTRICT

WHEREAS, Water levels on Lakes Michigan and Huron have been lowered nearly two feet due to historic dredging on the St. Clair River; and

WHEREAS, The two lakes, which are actually one body of water connected at the Straits of Mackinac, have been below their long-term average for more than a decade, and forecasters say in the coming months they could plunge below their record low; and

WHEREAS, An organization of 90 mayors representing more than 15 million residents in cities across the Great Lakes region is telling the International Joint Commission that it is "dissatisfied" with a recent study that determined restoring lake levels by installing some type of structure to repair damage done to the St. Clair River would be a costly project that could take decades and ultimately will do more harm than good; and

WHEREAS, The St. Clair River is the primary outflow of Lakes Michigan and Huron, and a deeper river channel means more water can flow out of the lakes, into Lake Erie, over Niagara Falls and ultimately, out to the Atlantic Ocean; and

WHEREAS, The mayors' group is asking the Joint Commission to further investigate engineering options to raise lake levels in order "to compensate for human activities, notably dredging the St. Clair River over the past decades"; and

WHEREAS, The St. Clair River has been heavily dredged for over a century, and the federal government has long acknowledged that this human meddling in the riverbed has led to a permanent drop of about 16 inches from Lakes Michigan and Huron's long term average; and
