**Bay County Building Authority
Wednesday, December 17, 2008 Minutes
Page No. 1**

This meeting of the Bay County Building Authority was called to order, a roll call conducted, and a quorum was determined to be present.

- 32 MOVED, SUPPORTED AND CARRIED TO APPROVE THE MINUTES OF OCTOBER 15, 2008 AS PRESENTED.**

ITEMS FOR CONSIDERATION:

GENERAL BUILDING AUTHORITY:

- 33 MOVED, SUPPORTED AND CARRIED TO RECEIVE THE OUTSTANDING BOND DEBT UPDATE. (ITEM V A)**

UNFINISHED BUSINESS:

There was a discussion on the status of the Library Project. Project Manager, Bob Redmond stated that the Southside branch is on hold and the remaining money can be used for operations if the Southside is not renovated. At this time the money is being invested by the County Treasurer. Bob Redmond also mentioned that the County Finance Department has purchased Tyler Munis software and the Project Coordinator will now enter all Building Authority financial information and will also be able to print reports.

NEW BUSINESS:

Bill Borch asked the Project Manager if the waste water project would fall under the jurisdiction the Building Authority. Bob said that it falls under the Road Commission and therefore the Building Authority would not be involved.

MISCELLANEOUS:

- 34 MOVED, SUPPORTED AND CARRIED TO APPROVE THE ACCOUNTS PAYABLE INVOICES AS PRESENTED. (ITEM VIII)**

PUBLIC NOTICE

Bangor Township Downtown Development Authority, c/o Linear Engineering, 3583 East Wilder Road, Bay City, Michigan, 48706, Bay City, Michigan, 48706, has applied to this office for a permit under authority of Part 303, Wetlands Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The applicant proposes to dredge and fill wetland for the purpose of constructing a parking lot. The project is located at 4191 Shrestha Drive. Approximately 602 cubic yards of fill will be placed in an area measuring an average of 160 feet long and 124 feet wide and to an average depth of 10 inches. Wetland impact proposed is 0.46 acres. Mitigation has been completed. The project is located in T14N, R5E, Section 17, Bangor Township, Bay County, Michigan, in accordance with plans attached to this notice.

THIS NOTICE IS NOT A PERMIT

The proposed project may also be regulated by one or more additional parts of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, that are administered by the Land and Water Management Division (LWMD). The requirements of applicable parts are considered in determining if it is in the public interest to issue a permit.

When a permit application is received requesting authorization to work in wetlands of the State of Michigan, pursuant to PART 303, WETLANDS PROTECTION, OF THE NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED, the Act provides that the department submit copies for review to the department of public health, the city, village or township, and the county where the project is to be located, the local soil conservation district, any local watershed council organized under Part 311, and the local port commission. Additional notification is provided to certain persons as required by statute or determined by the department.

A city, village, township or county wanting to make comments on the proposed project shall furnish this office with its written comments no later than 45 days from the date of this notice. All other persons wishing to make comments shall furnish their written comments to this office within 20 days after the date of this notice. Written comments will be made part of the record and should reference the above file number. Objections must be factual, specific, and fully describe the reasons upon which any objection is founded. Unless a written request for a public hearing on this project is filed with the department within the 20-day public comment period, the department may make a decision on the permit application without a public hearing. The determination as to whether a permit will be issued or a public hearing held will be based on evaluation of all relevant factors defined in Sections 30106 and 30311, or permit criteria defined by other appropriate Parts of the NREPA. These Sections address the effect of the proposed work on the public trust or interest including navigation, fish, wildlife, and water quality among other criteria. Public comments received will also be considered.

2 DESCRIBE PROPOSED PROJECT AND ASSOCIATED ACTIVITIES, AND THE CONSTRUCTION SEQUENCE AND METHODS (attached additional sheets)

Written Summary of All Proposed Activities. *The project consists of development of a single lot (Lot 17) to expand a public parking area including handicapped parking at the existing Bay County Civic Arena, (adjacent to the south). The lot is one of the few remaining undeveloped parcels in the subdivision which contained some wetland areas - for which development of the entire subdivision was first authorized under MDEQ Permit No. 93-08-0243, to allow for fill in those portions of the subdivision which contained wetlands. Mitigation for the entire fill area of the subdivision was authorized at that time and was successfully completed - known as the Boutelle wetlands. The original permit expired, was renewed/expired and is being re-applied for at this time - a copy is included within this application for reference. Also included is a copy of the DEQ delineation for the site, and the DNR acceptance of the mitigated wetlands shown with a copy of the recorded deed.*

Construction Sequence and Methods. *Lot 17 is relatively flat. The eastern half of the lot has slightly variable topography, contains the delineated wetlands area and will require a greater thickness of sand and gravel layer. Overburden will not be stripped from the site. Sand will be placed and compacted in a layer ranging from 4"-6" (western portion) to a maximum depth of 2.5' at one small spot on the eastern portion of the lot, with an average sand layer thickness approx. 10". A 4" layer of crushed gravel will be placed on the sand to bring this surface layer up to finish grade for the adjacent parking. The 40' greenbelt buffer will not be disturbed.*

4 PROPOSED PROJECT PURPOSE, INTENDED USE, AND ALTERNATIVES CONSIDERED (Attach additional sheets if necessary) Purpose/Intended Use: The purpose must include any new development or expansion of an existed land use. <i>The existing parking area at the Bay County Civic Arena is insufficient to accommodate the current public parking needs, particularly during special events held at the facility. Crowds attending events at the Arena have parked cars along each side of Shrestha Drive backing up traffic and causing hazards and pedestrian safety issues - local Police have ticketed these parked cars. The purpose of the project is to expand available, legal parking at the facility.</i> Alternatives: Include a description of alternatives considered to avoid or minimize resource impacts. Include factors such as, but not limited to, alternative construction technologies; alternative project layout and design; and alternative locations. For utility crossings, include both alternative routes and alternative construction methods. <i>Alternatives considered include consideration of other possible expansion sites for parking, however adjacent lands are developed. Best practises will be employed to minimize disturbance during construction, including erosion control and minimizing ground surface disturbance. The lot contains a 40' vegetated setback buffer measured inward from the east lotline which will be protected during design and construction.</i>

10 PROJECTS IMPACTING WETLANDS OR FLOODPLAINS OR LOCATED ON AN INLAND LAKE OR STREAM OR A GREAT LAKE

- Check boxes A through M that may be applicable to your project and provide all the requested information.
- If your project may affect wetlands, also complete Section 12. If your project may impact regulated floodplains, also complete Section 13.
- To calculate volume in cubic yards (cu yd), multiply the average length in feet (ft) times the average width (ft) times the average depth (ft) and divide by 27.
- Some projects on the Great Lakes require an application for conveyance prior to Joint Permit Application completeness.
- ➔ Provide a cross-section and overall site plan showing existing lakes, streams, wetlands, and other water features; existing structures, and the location of all proposed structures, land change activities and soil erosion and sedimentation control measures. Review Appendix B and EZ Guides for completing site-specific drawings.
- ➔ Provide tables for multiple impact areas or multiple activities and provide fill and excavation/dredge calculations.

The proposed project will be serviced by: public sewer private septic system ➔ Show system on plans
 If septic system, has an application for a permit been made to the County Health Department? No Yes
 If Yes, has a permit been issued? No Yes ➔ Provide a copy.

Has a professional wetland delineation been conducted for this parcel? No Yes
 ➔ Provide a copy of the delineation. ➔ Supply data sheets.
 Applicant purchased property before OR after October 1, 1980.

Is there a recorded MDEQ easement on the property? No Yes If Yes, provide the easement number

Has the MDEQ conducted a wetland assessment for this parcel? No Yes ➔ If Yes, provide a copy of assessment or WIP number:

Describe the wetland impacts, the proposed use or development, and any alternatives considered: *This is an isolated and dry possibly former 'wetlands' area in the middle of two developed parcels and exhibits minimal wetland characteristics. Alternatives considered include not building however the public need for the expanded parking area has been demonstrated. Also the adjacent 40' setback buffer on the lot must be recognized as part of the alternatives to development, and this will not be disturbed.*

Does the project impact more than 1/3 acre of wetland? No Yes
 ➔ If Yes, submit a Mitigation Plan that includes the type and amount of mitigation proposed. For more information go to www.michigan.gov/deq/wetlands

Describe how impacts to waters of the United States will be avoided and minimized: *Soil conservation practices will be used during and after construction.*
