

Great Lakes Bay Regional Energy Efficiency, Conservation and Renewable Energy Strategy Public Input Meeting Notice

Bay, Saginaw, and Midland Counties are collaborating on the development and implementation of a Great Lakes Bay Regional Energy Efficiency, Conservation and Renewable Energy Strategy to conserve and reduce overall energy use, improve the energy efficiency of our buildings and transportation infrastructure. The Strategy will enable our region to meet a growing share of our energy demand with alternative energy sources & technologies, particularly those produced in the region. The effort builds on the significant success of the Counties' existing partnership on regional economic development, alternative energy, and transportation. Public input is requested to help set priorities and plans for achieving energy conservation and renewable energy goals. The Strategy is in its initial draft phase, and is being actively discussed and refined by various stakeholders.

PUBLIC INPUT MEETING
Thursday, January 20, 2011
Saginaw Valley State University
Curtiss Hall, Emeriti Room(2nd Floor)
6:00 p.m. to 8:00 p.m.

Copies of the Draft Great Lakes Bay Regional Energy Conservation and Renewable Energy Strategy are available at the following: Bay County Environmental Affairs & Community Development Department website <http://www.baycounty-mi.gov/EACD/Default.aspx>, the Saginaw County website www.saginawcounty.com, the Midland County website www.co.midland.mi.us or by e-mailing a request to Shanna Draheim at shanna@shepherdadvisors.com.

We need your input and ideas – so please join us!
