Spring fishery workshops offer current research and information related to the status of the Lake Huron fishery

Michigan Sea Grant and Michigan State University Extension, in partnership with the Department of Natural Resources Fisheries Division, USGS Great Lakes Science Center, and local fishery organizations will be hosting four evening regional workshops across Lake Huron's coastline.

Open to the public, these workshops will provide valuable information for anglers, charter captains, resource professionals, and interested community members. Workshops will include information and status updates on topics such as fish populations and angler catch data, forage or prey fish surveys, recovering native lake trout populations, status of Saginaw Bay perch and walleye, habitat restoration efforts, updates on fisheries management activities, among many other Lake Huron related topics of local interest.

You are invited to participate!

Four evening **Lake Huron Regional Fishery Workshops** (approx. 3 hours each) are open to the public at **no cost**. Workshop opportunities include:
