To: Commanding Officer - Emergency Management Division, Department of State Police; (District 3)
Emergency Management Division District Coordinator; (Post 31) State Police Post Commander

On 08/09/2014 the County of Bay sustained a widespread emergency caused by a water main break. As a result of this situation, the following conditions exist: the City of Bay City water treatment plant, which supplies potable water to most of Bay County, has lost 8-10 million gallons of water and continues to lose water at a rate of about 5 million gallons per 12 hour period. At this rate, the water pressure will drop to a point that will force the municipalities to issue a boil-water alert early this week. At that point water distribution to most of Bay County will be impacted, causing life-safety concerns.

Therefore, as the County Executive of Bay County, in accordance with Section 10 of 1976 PA 390, as amended, I hereby declare that a "state of emergency" exists therein, that the response and recovery aspects of the emergency operations plan have been activated, and that local resources are being utilized to the fullest possible extent.
