Michigan Wind Energy Task Force offers state's manufacturers opportunities

The Michigan Wind Energy Task Force released several opportunities for Michigan manufacturers looking to get into the wind energy business. First, a small wind turbine representative, SkyStream, is interested in sourcing towers and bolting systems to Michigan manufacturing firms for his local installations. For more information contact Garth Ward at Michigan Wind Power, (231) 645-4479 or Garth@michiganwindpower.net. Also, a Michigan wind turbine company is looking for venture partners. For more information, contact Karl Morgan Kaufman, founder of 21st Century Green Solutions, LLC, 1180 Hollyhock Dr., Grand Blanc, MI 48439, (810) 241-5240 or karl.kaufman@sbcglobal.net, or www.21stCenturyGreenSolutions.com. Also, composites experts at Michigan State Univeristy have developed a unique composites fabrication process that can potentially allow for a lighter weight, more durable wind blade. For more information, contact Alfred Loos or Dahsin Liu at MSU, 2244 Engineering Building, East Lansing, MI 48824, (517) 353-6716 or 432-0844, liu@egr.msu.edu or aalos@egr.msu.edu. Also, Naperville, Ill.-based Broadwind Energy Inc. has entered into agreements to raise \$100 million through the direct sale of common stock to investment funds managed by Tontine Associates LLC. For more information, contact Moller at (630) 637-0315 or lars@broadwindenergy.com. Finally, Alternity Wind Power, an affiliate of The Conti Group of South Plainfield, N.J., is exploring the Michigan wind market and is reaching out to potential partners in Michigan. Alternity Wind Power is actively looking for partners in the Michigan market to develop wind projects. For more information, visit www.alternitywindpower.com or contact Anthony Blommel, project manager, Alternity Wind Power, One Cragwood Road, South Plainfield, NJ 07080, or (908) 791-4837.

Comments

Hello,

I work for WindEnergy7 and we have projects in the sale, distribution, manufacturing, and servicing of small and mid size wind turbine generator systems. We are in business to assist individuals, landowners, and small communities with their wind power projects.

We are currently taking bids for new manufacturers to build our towers and blades under non-disclosure contracts. If any Michigan manufacturers are intersted please contact us: WindEnergy7.com
