RE: **Public Health Advisory Notice - Saginaw River-Bay County, MI**

The results of surface water samples collected from the Saginaw River in the City of Bay City on April 15, 2014 have exceeded the State of Michigan's water quality standard for partial body contact recreational activities and thus a public health advisory is in effect. This public health advisory will be lifted when bacteriological levels comply with the State of Michigan's water quality standards.

For additional information, please contact the Bay County Health Department at (989) 895-4006.
