The Metropolitan Transportation Plan (MTP) is a long range planning document that directs federal funding to transportation related projects. The MTP can include roads, bridges, trails, ports, rail, air, etc. In order to draft a 2040 MTP, it's very important to have appropriate input from all transportation related, interested groups. This summit will help create a better understanding of the transportation planning process and allow for public comments regarding the existing transportation infrastructure in Bay County.

**Come have your voice heard and be a part of the
prioritization of transportation projects in Bay County!**
