Report Module: Safety Management Analysis

Today's Date: Friday, February 25, 2011

Dates: 1/1/2009 to 12/31/2009

NOTE: For most of the categories, a crash may be counted in only one of the option items. For example, in the CRASHES BY DAY OF THE WEEK category, a crash may be counted in the total of only one day (the option item); i.e.-- a crash counted in the total for Monday is not counted in the totals for any of the other days. There are two exceptions to this rule: for the CRASHES BY INVOLVEMENT and CRASHES BY DRIVER VIOLATION categories a crash may be counted in more than one of the option items. For example, a crash may involve Drinking, Deer, and Fleeing Situation; in the CRASHES BY INVOLVEMENT category this crash would be counted in the totals of three of the option items (Drinking, Deer, and Fleeing Situation).

Also, the percentages listed in parenthesis are a representation of the total crashes for each option item as a percent of the TOTAL NUMBER OF CRASHES in the selected date range. The percentages listed after each Fatal + A-type option item total in the CRASHES BY DRIVER VIOLATION category are an exception; these percentages represent the total Fatal and A-type Injury crashes as a percentage of the Driver Violation option item total that they follow (and are grouped with, as indicated by the horizontal dividing lines).
