Bay County Department on Aging

515 Center Avenue Suite 202, Bay City, MI 48708

(989)895-4100 or Toll Free (877) 229-9960

Website: <http://www.baycounty-mi.gov/Aging/>

The Bay County Department on Aging is dedicated to providing continued opportunities for the 60 and better population within our community by maintaining independence, offering social opportunities, and enhancing their lives through quality services in a cost-effective manner.

Programs and services include:

Activity Centers: A place where people 60 years and better can enjoy social activities, health related activities, and a nutritious meal with an emphasis on aging well. A suggested donation of \$2.50 for the meal is welcome. Reservations must be made 24 hours in advance by contacting the desired Activity Center. Menus are located in several area publications or by calling the Department on Aging. Each Activity Center offers an array of different activities and opportunities. (See the Wonderful Times Newsletter for specific monthly opportunities, times, and phone numbers.) Additional special events and programs are extended to our 60 and better participants including: wellness programs, exercise classes, support groups, in-services, Olympic Games, outings, day trips, and instructional classes.

Caregiver Support and Education Program: This program is designed to help family members who are struggling to care for their loved ones who are ill or have disabilities. The caregiver is the focus of attention. Education on the physical, emotional, and spiritual aspects of caregiving is provided. A major goal is to help the caregiver learn to take care of her/himself in order to preserve their ability to care for their loved one. The program offers specialized training materials for caregivers for those with dementia. There is no cost for the program; however, either the caregiver or the care receiver must be age 60 or over and a resident of Bay County.

Case Management: Case Managers complete in home visits to evaluate seniors' needs. Case managers are able to help assist with access to programs such as Home Delivered Meals, Homemaking, Personal Care, and referrals to other agencies and programs as needed.

Handyman Program: "Light" home repair program, fee based on income. Client responsible for materials. Handyman **is not** a licensed contractor, electrician, or a plumber. Any job requiring a permit, or a licensed professional will be denied.

Home Delivered Meals: Home delivered meals can be provided to homebound seniors age 60 and better who meet eligibility requirements for the program. Meals are provided on a suggested donation basis.

Homemaking: Individuals age 60 and better who have physical limitations that prevent them from completing light housekeeping or shopping duties may sign up for the Homemaking Program. A case manager will conduct a home visit to assess need and explain services. Services are targeted to those in greatest economic need and/or greatest social need. There is a suggested hourly donation for the service. Due to demand, there will be a waiting list for this program.

My ID Program: These ID cards are meant to assist those that are not able to navigate the Secretary of State's website for an appointment due to no internet access or for those who are not able to get to an appointment. To do this, the Department of Aging requested permission from the Board of Commissioners to utilize the Bay County seal on an ID for county residents who are 60 years or older. The ID will have the resident's name, address, date of birth, and date issued along with their picture and signature. Department of aging director Beth Eurich noted the ID does not function entirely like a state ID. Instead, the ID helps to serve a simple piece of identification for those who need something with their name, address, and phone number on it.

Personal Care: Homebound individual age 60 and better who need help with personal care services, such as bathing, may contact Bay County Department on Aging to request the services. Trained Home Health Aides visit the home to provide services. A Registered Nurse or Social Worker completes the initial home visit to assess need, determine hourly suggested donation, and explain services. Due to demand, there will be a waiting list for this program.

Respite Care: In-Home Respite Care is intended to provide a break for caregivers of those that they care for 24 hours per day. Caregivers can take this opportunity to leave the home or even stay home and catch up on a book or nap, etc. Worker provides companionship, supervision, light meal preparation, medication cues, and activities. Care is normally provided 2 hours every other week but may be more based on availability. The care recipient must be a Bay County resident 60 years or better. Call Department on Aging for further eligibility requirements.

Volunteer Opportunities: For those who want to live and age well, the Bay County Department on Aging is a non-profit organization committed to serving the 60 and better residents live as independently as possible in their own homes. Volunteers are needed to help with this mission. Some volunteer opportunities include transportation, grocery shopper, garden helper, food commodities delivery, activity center helpers, special event helpers, and committee servers. An application process is required, and background checks are completed. For more information call Patty at (989) 895-4100.

Weather Closing Procedures: During the cold weather months the Department on Aging will sometimes close Activity Centers and Home Delivered Meal routes due to road conditions and/or extreme weather. When the Department on Aging makes the decision to close routes or centers, the notice is under "Bay County Department on Aging, no meals/sites closed". Calls can be made to the Department on Aging if a participant is unsure of the status of their meal. Closings will be listed on the following TV stations: WNEM-TV 5, WJRT-TV 12, and WEYI-TV 25.

Abuse in Later Life: If you suspect abuse, neglect, or financial exploitation, call Michigan's statewide hotline at 1-855-444-3911.

Personal Emergency Response Systems (PERS)

Every second counts when you experience a fall, medical issue, or other emergencies. Your recovery and independence can be at risk if you are alone and medical care is delayed.

PERS are commonly referred to as “Lifeline” units and they summon help with a simple push of a button. These medical alert systems are worn at all times by the individual and can be purchased in either a pendant (necklace), wrist band design, belt clip, or be placed in a pocket. Almost all systems are waterproof. Most medical alert systems have a one-time installation fee with ongoing monthly rental fee thereafter. Some hospitals and social service agencies can pay for low-income recipients. These units guarantee you the peace of mind that prompt and caring assistance will be provided 24 hours a day, 365 days a year. Some units may offer additional add on features including fall detection, medication dispensers, bed mats, wander guards, or wall buttons.

Individual businesses should be contacted to inquire about their unit’s specifics, cost and/or add on features.

MI Choice

Medicaid Home, Community Based Waiver, & PACE

The waiver program is a long-term care program that provides an array of home-based services for those that are **medically** and **financially** eligible for nursing home care. Age requirements differ depending on the program. It is designed to help frail elderly and disabled persons avoid unnecessary or premature nursing home care and to support family and private caregivers. *This does not include ongoing 24-hour care, nor does it replace informal support.* This is a supplement to family, friends, neighbors, and other caregivers that make up the informal support system.

A waiver team, normally a Registered Nurse and a Licensed Social Worker, conducts a comprehensive assessment, develops a plan of care and arranges for appropriate supportive services to be put in place. The team regularly monitors the person's needs. Participants receive the basic services that Michigan Medicaid covers, and one or more of the following services: **Adult Day Care, Counseling Services, Homemaking, Out of Home Respite Care, Personal Emergency Response System, Environmental Accessibility Adaptations, Specialized Medical Equipment and Supplies, Chore Services, Home Delivered Meals, In-Home Respite Care, Personal Care, Private Duty Nursing, and Non-Medical Transportation.**

 - Ascension Standish Hospital program – (989) 846-3542
 - My Michigan Health Gladwin program – (989) 246-6339
 - Ask about transportation options

Adult Day Care

Adult Day Care (ADC) relieves caregivers of daily duties while ensuring their loved ones still receive necessary care in a safe and friendly environment. The caregiver is able to continue working outside the home, receive help with the physical care of a loved one, avoid the guilt of placing a loved one in an institution, and have respite from what is often a 24/7 responsibility. The care receiver also benefits from adult day care. He or she is able to remain at the home with family, but also has an opportunity to interact socially with peers and to share in stimulating & enriching activities.

A typical day at an ADC center could include supervised care; small group or individual activities such as reminiscence, sensory stimulation, music and art; nutritious meals; personal care, and even transportation. It is highly recommended that you do your research. Visit the center. Some centers are dementia specific, which means that they provide services exclusively to that population, while other centers serve a broader population.

Golden Horizons Adult Day Care

1001 Marsac Street
Bay City, MI 48708
(989) 892-6644

Niche Aging Center and Adult Day Care

3405 E. Midland Road
Bay City, MI 48706
(989) 684-2273

Available funding: At present, Medicare does not cover ADC costs. The Medicaid Waiver program has the ability to cover ADC costs. Veterans should contact their local VA Hospital (989-497-2500), those with a service connection may be eligible for funding. Some of the ADCs in our area offer need-based scholarships. Others may offer a sliding-scale fee based on income. Individuals with long-term care insurance may also have an ADC benefit available to them.

Pharmacies

Each pharmacy offers services such as a free delivery, allergy screening, refilling options, immunizations, Yellow Jug Old Drug disposal, discounts, filling of the patient's own medication planners, and drive thru pickup. McLaren offers discharge medications to the patient before leaving the hospital.

Please call the individual pharmacy for details on delivery charges, delivery area, delivery days, senior discounts and specific services.

Works with your primary care physician.
(855) 298-9006

Mobile Phlebotomy of Central Michigan
In home lab collection site for bloodwork, urine, serie draws and more.
Normally in Bay County on Tuesdays.
(989) 715-2050

In-Home Care (Private Duty)

Generally, these services are paid for “out of pocket”. Limited funding may be available through community programs such as the VA or the Medicaid Waiver Program. Other agencies may provide limited services and/or scholarships that can assist with funding. Long Term Care policies may also provide for care in the home.

Whether you are looking for care to come in for a couple hours a day, or a caregiver who will provide 24-hour care, we strongly urge you to check the background and references of each and every person who comes into your home. Please remember to also ask about licensing from the state and/or liability insurance. **Do your research!!!**

Bay County Department on Veteran Affairs

(989) 895-4190

The Bay County Department of Veteran Affairs provides information, referrals, and support services to honorably discharged, wartime veterans and their families. Veteran programs and benefits are available at all levels of government (federal, state, and local). If you are a veteran and in need of benefits assistance, please contact our office to speak with one of our representatives.

Office Hours

Monday - Friday: 8:00 a.m. - 5:00 p.m.
Closed for lunch from Noon to 1:00 p.m.

Skilled Nursing Facilities (a.k.a Nursing Homes)

Nursing homes are facilities licensed by the Division of Licensing & Regulatory Affairs, Bureau of Community and Health Systems which provide nursing care and medical treatment.

There are three types of nursing home care: “intermediate”, “skilled”, and “custodial”. “Skilled” care provides 24-hour medical supervision, skilled nursing care, or rehabilitation. This care is ordered by a doctor. “Intermediate” care provides assistance with a person’s activities of daily living (ADL’s), and some health services and nursing supervision (but do not require 24-hour care). “Custodial” care provides assistance with a person’s ADL’s and personal care (but do not need the help of a practical nurse). Each facility will offer slightly different care, so make sure to check what services and care is specific to each facility.

Assisted Living

What is Assisted Living?

Assisted living is for people who need help with daily care, but not as much help as a nursing home provides. Assisted living facilities range in size from as few as 25 residents to 120 or more. Typically, a few “levels of care” are offered, with residents paying more for higher levels of care.

Assisted living residents usually live in their own apartments or rooms and share common areas. They have access to many services, including up to three meals a day; assistance with personal care; help with medications, housekeeping, laundry; 24-hour supervision, security, on-site staff; and social and recreational activities. Exact arrangements vary from state to state. Generally, these facilities are paid for “out of pocket”. However, some long-term care policies and/or VA programs may cover some of the expenses.

Hospice

Hospice provides medical care, pain management, and emotional and spiritual support for people who are diagnosed with a terminal illness, including people with Alzheimer's disease and other dementias. The main purpose of hospice is to allow the individual to die with dignity; without pain and other distressing symptoms that accompany terminal illness. Most hospice patients receive care in their own home; however, hospice is available wherever the person resides. Medicare is the primary source of payment for hospice care. In 2008, 6% of all people admitted to hospice programs in the U.S. had a primary diagnosis of Alzheimer's disease. An additional 11% had a primary diagnosis of non-Alzheimer's dementia.

Hospice vs. Palliative Care

Palliative care focuses on the relief of pain, stress, and other debilitating symptoms of serious illness. It is not dependent on prognosis and can be delivered at the same time as curative treatment. The goal is to relieve suffering and to provide the best possible quality of life for patients and their families. Many, if not all of the aforementioned agencies also administer palliative care programs.
