#### **MEMORANDUM**

TO:

**Board of Commissioners** 

FROM:

Michael Rivard, Drain Commissioner

RE:

Annual Report

DATE:

March 27, 2024

As required by law, we have completed the Bay County Drain Commissioner's Annual Report. I am pleased to present an update of our work on behalf of our staff. We have completed another very successful year and our financial position remains very strong.

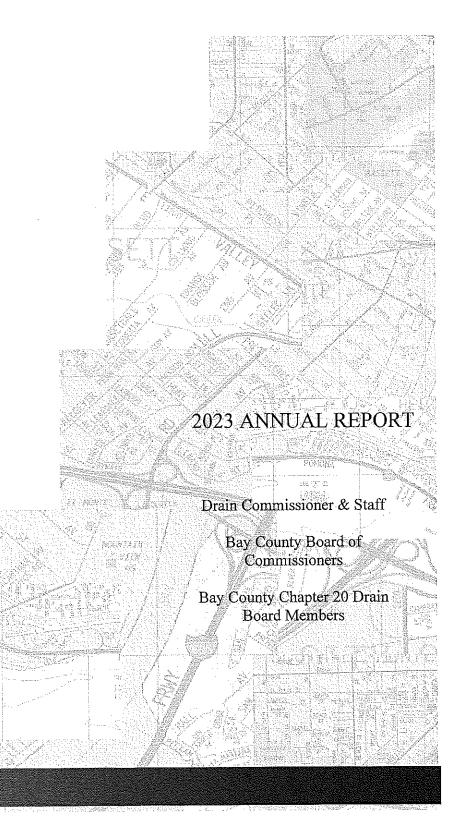

We provided one copy to the Chair of the Board and put the report on the County website under the Drain Commissioner's Office. We can easily produce a copy of the report if you would like one.

As I do each year, I must stress the quality of the staff of the Drain Commissioner's Office. As always, under the direction of Drain Board Members Tom Herek, and Kaysey Radtke, we have continued to provide the equipment and tools they need to be more efficient and productive.

We look forward to working with the County Board of Commissioners, Township Officials and our stakeholders in 2024 on behalf of the residents of Bay County. Please do not hesitate to contact me if you have any questions or if our office can be of service to you.

#### 2023 Accomplishments

#### **Projects**

In 2023, as in the past, the Drain Commissioner focused efforts on a significant number (37) of maintenance projects and the work was done in 11 townships. Beyond these Maintenance projects, Drain Commissioner Staff carried-out smaller repairs, spraying and brushing projects on dozens of drains throughout Bay County.

#### Equipment Replacement/Improvement

The Drain Office continuously upgrades and improves its equipment fleet. A schedule of replacing vehicles and equipment has been implemented.

#### Soil Erosion & Sedimentation Control

The Drain Office issued 105 new SESC permits in 2023 along with several renewals. Each permit received the necessary oversight and inspection.

#### Community Outreach/Responsiveness

In 2023, the Drain Commissioner issued an annual report, making it available to all municipalities and other interested parties. Dialogs were maintained and an open informational policy remains in place in the Office of Drain Commissioner.

Dozens of residents of Bay County had contacted the Drain Office with Drain specific concerns in 2023. Each was responded to, to the extent it fell within our jurisdiction, most often after receiving a site visit. Although many issues could not be addressed by the Drain Commissioner, each contact was investigated.

#### 2024 Goals and Objectives

#### Responsiveness

The Drain Office will continue efforts to be responsive to all requests for information. The goal of an initial response within 48 hours continues. This includes site visits and presentation of necessary permitting or petitioning information.

#### Community Information/Outreach

Building on the past successes, the Drain Commissioner's Office will continue to outreach to the community with information on its efforts. Mailings, individual and neighborhood meetings have led to clear communication with residents on specific projects affecting them. These activities will continue to be a priority. The Drain Commissioner will also continue meetings with local officials, members of the farm community and environmental groups to seek input on the direction of the drain system.

#### Drain Maintenance Program

A substantial portion of the work done by the Office of the Drain Commissioner is considered maintenance. It is restoring drains to their original design. In 2024, it is anticipated that dozens of drains will be cleaned or improved through the maintenance process.

Maintenance staff will continue to perform minor county-wide drain maintenance work. This includes jetting culverts, repairing wash-outs, removing obstructions, brushing and installing minor pipe projects. We will also continue our mowing and drain spray programs. These functions are provided at a reduced cost and are more efficient for residents.

#### Equipment Replacement Program

2024 will see the continuation of an effort to review and upgrade pumps and electrical equipment at pump stations under Drain Office jurisdiction, most pump stations have been upgraded, including Bangor and Hampton Townships, but efforts will continue.

#### Soil Erosion/Sedimentation Control

The Drain Commissioner will continue as the County Enforcement Agent for soil erosion and sedimentation control. The Drain Office has made minor modifications to the system for the efficient issuance and enforcement of SESC permits and will continue to operate the program within the original Drain Commissioner's budget, relieving the general fund of any costs for the program.

#### Remonumentation Program

In 2024, the Drain Commissioner's office will continue to oversee the County's remonumentation program. Under the direction of Mark Basket, P.S. the Office will Oversee State Grants that will maintain survey marks on section corners throughout Bay County.

#### Operational/Strategic

During 2024, the Drain Office will continue to improve its operation and approach to serving the community. Over the coming year, further implementation of additional responsibilities, as well as on going changes will be reviewed for efficiency.
